ATTACHMENT 3: SPECIAL DATA COLLECTION FORMS

This attachment provides two sample forms (A and B) which contain the agreed question modules provided in Section 3.

Schools or school systems may wish to use these sample forms as special data collection forms. Schools or school systems may also use the question layouts contained in these samples in revising their enrolment forms.

The difference between the two samples lies in the questions relating to country of birth and language background where there are two question options.

Sample A contains the question modules which entail the least amount of coding. It is slightly longer than Sample B as the most common countries and languages are listed so that they can be ticked. If a school or school system chooses to use the question formats in Sample A, they may wish to consider the alternative (State and Territory-based) lists of languages and lists of countries in Attachments 5 and 7 respectively. The lists are highlighted in yellow in Sample A.

Sample B provides the shortest form of these questions; however this will require schools or school systems to do more coding.

Schools or school systems may choose to use a mix of questions from the two samples. They can also choose their preferred terminology for parents/guardians (described in the Glossary). Considerable flexibility is provided so long as the actual questions and response categories are not altered.
This form provides questions which entail the least amount of coding by schools. Schools or school systems may choose alternative lists of languages and countries—see Attachments 5 and 7
