supporting
ministers to
implement national
priorities that
improve learning
outcomes
CC

Curriculum Corporation is a partnership of all Australian Education Ministers with a Board representing all education systems and sectors, teachers, parents and the NZ Ministry of Education. It undertakes activities that are in the national interests and that support and augment the work of education systems and sectors. Its curriculum resources and services are dedicated to improving student learning.

It is ideally placed to deliver:

- » focused curriculum development and assessment products drawn from first-hand educational experience
- » project management and consultancy services to government and commercial organisations
- » resources and services that meet the needs of educators and education systems

EDUCATIONAL SERVICES

CURRICULUM EXPERTISE

Curriculum Corporation's project managers are experts in curriculum design, implementation and evaluation. We manage a large range of multidimensional projects and have the skills to negotiate in sensitive environments. Mapping curriculum resources against each of the Australian State and Territory curriculums ensures their relevance in all Australian classrooms.

ASSESSMENT AND TESTING

Specialist services and advice in classroom and system-level assessments are offered. Expertise includes primary and secondary assessment, large-scale testing, test development, design and desktop publishing, administration and logistics.

ONLINE INNOVATION

Multimedia and online resources are developed for schools. These are user-focused and underpinned by a strong pedagogical understanding. The Le@rning Federation initiative employs emerging technologies to produce world-class online curriculum content to encourage student learning and support teachers in Australia and New Zealand.

WORKING WITH SCHOOLS

A trusted broker in education, Curriculum Corporation supports schools in innovative curriculum development and delivery in such areas as mathematics, science, technology, values education and boys' education, managing the delivery of literacy support, providing professional teaching and learning resources, and delivering professional development.

CONSULTATION

Consultation processes are at the core of all curriculum projects. Collaboration with education authorities, professional teacher associations, practising teachers and key stakeholders maximises quality, relevance and take-up.

EVALUATION AND RESEARCH

Evaluation and reporting services support significant national curriculum initiatives. Survey instrument design, implementation and evaluation of school curriculum resources are provided.

CURRICULUM RESOURCE DEVELOPMENT

Curriculum Corporation is highly experienced in the collaborative development of curriculum resources for schools. The in-house development and production teams maintain strict quality assurance processes throughout resource production.

MARKETING AND DISTRIBUTION

A specialist in selling and communicating directly into schools, the Corporation is ideally placed to provide strategic marketing, communication and distribution services for those wishing to enter this challenging market.

SUPPORT FOR SCHOOLS AND EDUCATORS

SCHOOLS CATALOGUE INFORMATION SERVICE (SCIS)

SCIS is a cataloguing service used in Australian, New Zealand and international schools. The SCIS database lists over one million educational materials, including books, audio-visual materials, electronic resources and websites. SCIS reduces the cost and duplication of effort involved in cataloguing resources in school libraries.

PROFESSIONAL DEVELOPMENT

The Corporation develops, manages and delivers teacher professional development, with models ranging from online communities of practice to train-the-trainer programs, and from national conferences and seminars to facilitating mentor arrangements between schools and higher education or community entities.

CURRICULUMPRESS

A unique range of resources to support teacher professional development has been established, with print and electronic publications ranging from professional reading through to practical teaching guides.

JOURNALS

The Corporation produces quality educational journals. *EQ Australia* is a quarterly professional education journal offering practical help with classroom challenges, lively debate, information, research, data and reports on what is happening in education today. *Curriculum Leadership* is a weekly online journal for leaders in school education offering news updates, summaries of key literature, and articles covering current initiatives, research and opinion.

INTERNATIONAL

CCIINTERNATIONAL

CCIInternational has extensive experience in working with educational authorities overseas and in Australia, as well as bilateral and multilateral funding organisations, government and non-government agencies. CCIInternational is well-equipped to work in an increasingly globalised context, and has led recent projects in Africa, Asia and the Pacific.
