Search for TLF Objects by Key Learning Area and Stage

The Learning Federation

The Learning Federation (TLF) develops online curriculum materials for teachers and students in Australia and New Zealand. It also works to ensure that these materials can be used to widen and enhance learning experiences in the classroom. TLF is an initiative of the governments of Australia, the Australian states and territories, and New Zealand.

Online materials have been devised for students in Years K-10. Many of these could be used with TAFE students. Objects have been created in the areas of:

- Science
- Mathematics and numeracy
- Literacy for students at Risk Years 6-8
- Studies of Australia
- Languages other than English: Chinese, Japanese and Indonesian
- Innovation, enterprise and creativity.

This content has been created in two formats:

- Interactive multimedia learning objects
- Digitised online resources.

Multimedia learning objects:
The learning objects contain digital material - e.g. graphics, text, audio, animation and interactive tools designed to engage and motivate student learning.

Digitised online resources:
Ad resource consists of a single item or asset - e.g. a section of mixing footage, a...
Use quick search for a specific activity

Quick search

Quick search is the fastest way to find resources for student learning. Simply type a word or phrase that best describes the information you want to find.

1. Dream machine: metaphor

Description: Build a dream bike, using fantasy parts such as a time-travel frame and super sonic jet-pod. Look at a model text that uses metaphors to recount a journey on a 'Wish come true bike'. Choose metaphors to make an interesting recount of an adventure on another fantasy bike. This activity is one in a
Dream Machine

Use the Dream machine catalogue to build your fantasy bike. Then make some metaphors to describe our amazing machines!
Games for learning on the parents and community part of TaLe
When teachers display digital content on an interactive whiteboard students find it highly engaging and motivating …
In an evaluation of a trial of a learning management system carried out by CLI last year teachers said:

“Chat engages all students and enables the teacher to keep a close eye on each student's progress and to be able to help them before they fall behind”

“Forums/Chat/QA are evidence of all students’ opinions not just the loudest. All students have a voice and are able to express a point of view and can be heard”
Underpinning the fresh equation …

is effective pedagogy …

composed of *authentic elements* from

*quality teaching*

*productive pedagogy*

*personalised learning*  OR

*connected learning*

AND the TEACHER is central.
